Like most REALTORS® Gale has come to real estate after a lengthy journey with many side trips; educator, innkeeper, writer, business persona and minor bureaucrat. Throughout it all she has had an affinity for property in Nova Scotia. She brought her first one when she was eighteen and has saved, restored, and/or enjoyed another seventeen!

She has written and illustrated a book on unique cottages and castles to rent in Great Britain. She is the creator of the architectural series, "Landmarks of Nova Scotia" and has won a federal heritage award for one of her restoration projects.

She wants properties to go to good owners and her family is greatly relieved that she can now immerse herself in real estate without wanting to buy it all herself! A vicarious life of the best order.
